5. DIGITAL SERVICES (DSA) REGULATION

Digital Services Act (DSA) Regulation (EU) 2022/2065

Job Market Insights is required, under Article 24 of Regulation (EU) 2022/2065 (Digital Services Act), to publish information on its average monthly users.

Between 1 July 2023 and 31 December 2023, the average number of monthly users of the Job Market Insights service was 5K. Source: Similarweb (web data)

Please note that monthly user data are generated using external vendor tracking tools. We can't rule out the possibility that the methodology used might count users twice, and therefore, that said methodology be changed in the future.

Methodology used by Similarweb:

KPI equivalent for Active Recipients: Unique visitors (Deduplicated audience)

<https://support.similarweb.com/hc/en-us/articles/360005009398-Deduplicated-Audience>

Definition:

A user coming to the website, either once or several times, is considered a unique visitor to this domain. Unique visits is the primary metric used to assess the actual

reach of a website. These metrics are estimated in terms of both daily and monthly granularity.

Calculation:

Using a unique ID per device through the Similarweb network of contributors. Unlike other traffic analysis tools, Similarweb does not rely on cookies, which are considered unreliable as they can be manually or automatically deleted.

Deduplicated audience:

To estimate the size of deduplicated audiences, Similarweb uses learning and linear regression models to build an algorithm used to estimate the reach of a website's deduplicated monthly visits.
